Sanindusa, empresa reconhecida pelo seu Design, Qualidade e excelente Imagem de Marca.

Foi com grande determinação e empenho que ao longo destes anos, a Sanindusa conquistou a excelente imagem de marca e confiança que tem junto dos seus clientes. O sucesso apenas nos serviu como estímulo, mas por outro lado foi um convite a enfrentar novos desafios, apostando em novas tecnologias e no desenvolvimento de mecanismos de informação e inovação que facilitem a excelente prestação de serviço que já nos caracteriza. Não falamos apenas no mercado nacional, mas também nos mercados externos.

Desde o início da laboração em 1993 que o Grupo exportou os seus produtos e hoje, é com agrado que estamos presentes com os nossos produtos em 84 países, distribuídos pelos 4 cantos do mundo. Os mercados externos foram, desde o início da actividade, vistos como essenciais para o crescimento que a administração se propôs a alcançar. Estrategicamente a administração elegeu como principais factores para o sucesso, a qualidade, o design, a inovação, o serviço e a competitividade.

Sanindusa company recognized for its design, quality and excellent Brand Image.

It was with great determination and commitment that over the years, Sanindusa won an excellent brand image and confidence that has among its clients. The success only served as a stimulus, but on the other hand was an invitation to face new challenges, with new technologies and the development of mechanisms for information and innovation to facilitate the provision of excellent service which characterize us. We don't talk only in the domestic market, but also in foreign markets.

Since the beginning of laboring in 1993 the Group exported its products and today, we're pleased that we have our products in 84 countries, distributed by the 4 corners of the world. Foreign markets were, from the beginning of the activity, seen as essential for the growth that the administration set out to achieve. Strategically, management was elected as main factors for success quality, design, innovation, service and competitiveness.

Sanindusa, une entreprise reconnue pour son Design, sa Qualité et son excellente image de marque.

C'est avec grande détermination et engagement qu'au fil des années, Sanindusa a su conquérir une excellente image de marque et de confiance auprès de ses clients. Le succès nous a encouragé à relever de nouveaux défis, en misant sur les nouvelles technologies et sur le développement de systèmes d'informations et innovation, qui facilitent l'excellente prestation de service qui nous caractérise déjà. Nous ne faisons pas allusion seulement au marché national, mais aussi aux marchés externes.

Depuis le début de notre activité en 1993, le Groupe exporte ses produits et aujourd'hui, c'est avec un immense plaisir que nous voyons nos produits présents dans 84 pays, distribués aux quatre coins de la Terre. Les marchés externes ont été considérés, depuis le début, comme essentiels pour le développement que l'administration s'était fixé pour but. L'Administration a choisi comme stratégie le succès, la qualité, le design, l'innovation, le service, et la compétitivité.

Suzana Nobre

Nascida em Luanda, vive em Aveiro. Licenciada em Design Industrial pelo IADE em 1995, Pós graduação em Design de produto pelo Centro Português de Design e a Glasgow School of Arts em 1995/96.

Iniciou a sua colaboração com a Sanindusa em 1996 através de um estágio integrado no programa "Jovens designers para a indústria".

Entre os projetos contam-se a série Advance, misturadora Step, cabine Sensis e base de chuveiro Open.

Suzana Nobre

Emanuel Rufo

Nascido na Murtosa, vive em Estarreja. Licenciado em design industrial, com Mestrado em Design, Materiais e Gestão do Produto pela Universidade de Aveiro. É designer residente na Sanindusa desde 2003. Autor de diversos projetos: Sanitários Newday, Urb.y, Wc Kids, Easy, Status, Look; misturadoras T, Limit, Start, Line 42; lavatórios Flux, Sign, Frame, Note, Flat, Blend, Clean; Spas Aqua Natura, divisórias Cristal e Versus.

Emanuel Rufo

Melissa Vilar

Nasceu nos EUA em 1977. Melissa Vilar, é formada em Design de Produto desde 2001, pela Escola Superior de Arte e Design - ESAD de Matosinhos.

Após o estágio na Marinha Grande proporcionado pelo 1º prémio do concurso Jovem Designer começa a sua actividade profissional como Designer residente na Sanindusa.

Destaca produtos como os lavatórios Morfys, Join, Blok, Ring & Round e as séries Sanibold e Sanlife.

"Facilitar a vida do quotidiano às pessoas é uma preocupação, mas ao mesmo tempo é importante criar produtos afectuosos e alegres".

Melissa Vilar

Born in Luanda, lives in Aveiro.

Graduated in Industrial Design from IADE in 1995, Masters Degree in Design of product by the Portuguese Design Centre and the Glasgow School of Arts in 1995/96.

She began her collaboration with Sanindusa in 1996 through an integrated internship program called "Young designers for the industry."

The projects include the Advance series, Step mixers, Sensis hydromassage cabin and Open shower trays.

Susana Nobre est née à Luanda (Angola). Elle vit actuellement à Aveiro.

Elle obtient une licence en Design Industriel par l'IADE en 1995, et un diplôme en Design délivré par le Centro Português de Design et la Glasgow School of Arts en 1995/96.

Sa collaboration avec Sanindusa commença par un stage en 1996 inséré dans le programme « Jeunes designer pour l'Industrie ».

La série Advance, le mitigeur Step, la cabine Sensis et le receveur de douche Open sont les projets qui la distinguent.

Born in Murtosa, lives in Estarreja. A degree in industrial design, with a Masters Degree in Design, Materials and Product Management at the University of Aveiro. He is a resident designer at Sanindusa since 2003. Author of several projects: Newday Sanitary, Urb.y, Wc Kids, Easy, Status, Look; T mixers, Limit, Start, Line 42; Flux sinks, Sign, Frame, Note, Flat, Blend, Clean; Spas Aqua Natura, Crystal and Versus shower enclosures.

Emanuel Rufo est né à Murtosa (Portugal). Il vit actuellement à Estarreja. Il fait ses études supérieures à l'Université d'Aveiro et obtient une licence en Design Industriel et un master en Design, Matériaux et Gestion de Produits.

Il est Designer résident de Sanindusa depuis 2003 et est l'auteur des projets suivants : ensembles sanitaires New Day, Urb.y, WC Kids, Easy, Status, Look; mitigeurs T, Limit, Start, Line 42; vasques et lavabos Flux, Sign, Frame, Note, Flat, Blend, Clean; Spas Aqua Natura; parois de douche Cristal et Versus

She was born in the US in 1977. Melissa Vilar, has a degree in Product Design since 2001, by the Art and Design School - ESAD in Matosinhos.

After the internship in Marinha Grande provided by 1st Young Designer Contest prize she begins his professional activity as Designer resident in Sanindusa.

Highlights products such as Morfys, Join, Blok, Ring & Round washbasins and Sanibold and Sanlife series.

"Making people's life easier everyday is a concern, but at the same time it is important to create affectionate and cheerful products."

Melissa Vilar est née aux États-Unis en 1977.

Elle possède un diplôme de Design de Produit depuis 2001, délivré par l'Escola Superior de Arte e Design - ESAD de Matosinhos.

Après un stage à Marinha Grande comme récompense du premier prix du concours « Jeune designer », elle fait ses premiers pas dans la vie professionnelle à Sanindusa comme Designer résidente.

Elle est l'auteur des vasques Morfys, Join, Blok, Ring & Round et les séries Sanibold et Sanlife.

«Faciliter le quotidien des personnes est une de mes préoccupations, mais créer des produits affectueux et joyeux est tout aussi important pour moi.»

ESPAÇOS PEQUENOS

A casa de banho é um compartimento que se quer essencialmente prático e funcional.

Este espaço é cada vez mais reduzido, por isso, o segredo está em encontrar as melhores soluções que garantam funcionalidade e equilíbrio.

Existem duas soluções para estes casos:

sanitários suspensos: a sanita e bidé suspensos para além da vantagem da facilidade de limpeza, ocupam menos espaço uma vez que o tanque está incorporado na parede (Urb.y e Cetus);

sanitários de dimensões reduzidas: sobretudo que o seu comprimento seja o mínimo possível (Urb.y e Urb.y Plus);

SMALL SPACES

The bathroom is a room that we want, essentially, to be practical and functional.

This space is becoming increasingly reduced, so the secret is to find the best solutions to ensure functionality and balance.

There are two solutions for these cases:

suspended sanitary ware: the wall hung toilet and bidet beyond the benefit of easy cleaning they take up less space since the cistern is incorporated in the wall (Urb.y and Cetus);

sanitary ware of reduced dimensions: mainly that its length is as minimum as possible (Urb.y and Urb.y Plus);

PETITS ESPACES

La salle de bain est une pièce qui se veut essentiellement pratique et fonctionnelle.

C'est un espace de plus en plus réduit et de ce fait, le secret est de trouver les meilleures solutions pour assurer la fonctionnalité et l'équilibre. Dans ces cas-là, nous vous proposons deux solutions :

sanitaires suspendus: le WC et bidet suspendu, en plus de la facilité d'entretien, occupent beaucoup moins d'espace puisque le réservoir est encastré dans le mur (Urb.y et Cetus);

sanitaires de dimensions réduites: moindre longueur possible (Urb.y et Urb.y Plus);

Rimflush

O novo sistema de descarga "rimflush" caracteriza-se pela distribuição da água que, através da sua força, efetua uma lavagem perfeita do interior da sanita, sem salpicos. A ausência do aro fechado convencional, permite o acesso facilitado às chamadas zonas difíceis da sanita, garantindo assim uma melhoria significativa ao nível da higiene e maior eficiência da descarga.

The new flushing system, "rimflush", is characterised by its perfect water distribution, whose power perfectly cleans the inside of your toilet, without splashing. The absence of the conventional closed rim allows easy access to the so-called hard to reach areas of the toilet, ensuring a significant improvement in hygiene and better flushing efficiency.

Le nouveau système de chasse d'eau «rimflush» assure la répartition parfaite de l'eau qui, de par son énergie et sa vitesse, rince efficacement l'intérieur de la cuvette, sans aucune projection. L'absence de la traditionnelle bride facilite l'accès aux zones dites difficiles d'accès de la cuvette, et constitue une amélioration significative en termes d'hygiène et d'efficacité du rinçage.

O sistema ClipOff possibilita a montagem rápida e a remoção do tampo sem ter de desapertar quaisquer parafusos ou porcas.

Este sistema facilita a limpeza não só da sanita ou bidé mas também do tampo. Basta pressionar os botões laterais e retirar o tampo.

Depois de efetuar a limpeza apenas é necessário voltar a encaixar o tampo nas ferragens fixas à sanita ou bidé.

The ClipOff system allows a quick assembly and removal of the toilet seat without having to undo (unscrew) any screws or bolts.

This system makes cleaning your toilet effortless. Simply press in the buttons on the toilet hinge and remove the toilet seat.

Once cleaning is done simply re-tighten the fixed hinges on the toilet or bidet.

Le ClipOff permet le montage rapide et le démontage de l'abattant, sans avoir à dévisser des vis ou des écrous.

Ce système facilite le nettoyage non seulement des toilettes ou du bidet mais aussi de l'abattant. Il suffit de faire pression sur les boutons latéraux et enlever l'abattant.

Après avoir effectué le nettoyage, il suffit d'emboîter l'abattant dans les charnières fixes des toilettes ou du bidet.

Pressionar os botões para libertar o tampo.
Push the buttons to release the toilet seat.
Appuyez sur les boutons pour libérer l'abattant.

Levantar o tampo.
Lift the toilet seat.
Démontage vertical de l'abattant.

Facilidade de limpeza.
Easy cleaning.
Nettoyage plus facile.

Placas de descarga; tanques; sistemas de instalação e descarga; cotas de instalação
 Discharge plates; cisterns; installation and flushing systems; instalations dimensions
 Plaques de commande; réservoirs; systèmes d'installation et de chasse; cotes d'installation

GARANTIA

Garantia de **5 anos** para as estruturas metálicas.
 Garantia de **2 anos** para os tanques e placas de descarga.

WARRANTY

5 year warranty for metallic structures.
2 year warranty for cisterns and flush plates.

GARANTIE

Les structures métalliques son garanties **5 ans**.
 Les réservoirs et plaques de commandes pour wc son garanties **2 ans**.

ESTABILIDADE E ROBUSTEZ

Os sistemas de fixação que acompanham as estruturas asseguram a estabilidade e a fiabilidade da instalação ao longo do tempo, e os testes efetuados confirmam o suporte de carga de, no mínimo, **400 Kg**.

FÁCIL INSTALAÇÃO E ACESSIBILIDADE

As estruturas, tanques e placas de descarga foram concebidos de forma a tornar a sua instalação simples e a facilitar as operações de manutenção. A maioria das placas são possíveis de montar sem ferramentas e a sua remoção permite o acesso direto ao interior do autoclismo.

POUPANÇA DE ESPAÇO

A instalação de aparelhos sanitários suspensos permite ganhar espaço na casa de banho, ao mesmo tempo que aporta a sensação de amplitude a ambientes pequenos.

ECONOMIA DE RECURSOS

Os sistemas de descarga interrompível e dupla descarga possibilitam a economia de água, valorizando os recursos naturais e permitindo a redução dos custos de consumo.

STABILITY AND STURDINESS

The fixing systems which accompany the structures ensure stability and reliability in the installation over time. Tests confirm a load bearing capacity of, at least, **400Kg**.

EASY INSTALLATION AND ACCESSIBILITY

The structures, tanks and flushing plates were designed to make installation simple and facilitate maintenance operations. Most plates can be installed without tools and their removal enables direct access to the interior of the flushing cistern.

SPACE SAVING

The installation of suspended sanitary appliances saves space in the bathroom, whilst creating a feeling of ample room in a small environment.

RESOURCE SAVING

The interrupted flush or dual flush systems enable saving water, valuing natural resources and reducing consumption costs.

STABILITÉ ET RÉSISTANCE

Les systèmes de fixation qui accompagnent les bât-supports assurent stabilité et fiabilité de l'installation au fil du temps et les tests effectués confirment qu'ils supportent **400kg** minimum.

INSTALLATION FACILE ET ACCESSIBILITÉ

Les structures, réservoirs et plaques de décharge ont été conçues de forme à simplifier l'installation et faciliter l'entretien. La plupart des plaques peuvent être installées sans outils et retirer la plaque de décharge donne accès à l'intérieur de réservoir (trappe de visite).

GAIN D'ESPACE

L'installation des appareils sanitaires suspendus permet un gain d'espace dans la salle de bain et apporte une sensation d'amplitude aux espaces réduits.

ÉCONOMIE D'EAU

Les systèmes de chasse d'eau à poussoir interrompable et 3/6L permettent une basse consommation d'eau, valorisant ainsi la protection de nos ressources naturelles et permettant une réduction du montant de la facture d'eau.

HIGIENE E LIMPEZA

Ao libertar o chão de qualquer obstrução, a instalação de sanitas e bidés suspensos torna a tarefa de limpar a casa de banho mais fácil, mais eficiente e mais rápida.

HYGIENE AND CLEANING

Freeing the floor from any obstruction, wall-mounted toilets and bidets make cleaning the bathroom so much easier, more efficient and rapid.

HYGIÈNE ET ENTRETIEN

En désobstruant le sol, l'installation des cuvettes et des bidets suspendues permettant un nettoyage rapide et efficace de la salle de bain.

INSONORIZAÇÃO

Os autoclismos internos são revestidos a esferovite reduzindo o ruído e evitando a condensação.

SOUNDPROOFING

The internal flushing cisterns are covered in polystyrene foam, thereby reducing noise and preventing condensation.

INSONORISATION

Les mécanismes de chasse d'eau ont un revêtement de polystyrène ce qui réduit le bruit et permet d'éviter la condensation.

CERTIFICAÇÃO

Todos os autoclismos são fabricados de acordo com os requisitos de diretiva para a marcação CE.

CERTIFICATION

All flushing cisterns are manufactured according to directive requirements, in order to be labelled CE.

CERTIFICATION

Tous les mécanismes de chasse d'eau sont fabriqués selon les critères de la directive pour le marquage CE.
